# WH6-14LAG and TD6-14LAC The ideal replacement for any dry-cleaning operation

### Features and benefits

#### Keep customers coming back

Outstanding results for garments of every type thanks to specialized detergents and dedicated programs

#### Delicate on the delicates

Gentle on fine textiles and wools labelled dry-clean only, as less mechanical action. Woolmark-approved

#### Rapid return on investment

With a better loading factor, less prespotting, easier finishing and faster process times

#### Sustainable and eco-friendly

Water-based cleaning with none of the disadvantages of PERC, which can be dangerous to staff

#### Dry to dry in 1 hour

Smart chemicals and processes mean garments are fully dried in the dryer - no hang-dry
