

P02 - lagoon® Tannin Remover

Spotting agent

Part numbers

432731092 (6 x 0.5L)

432731096 (2 x 5L)

Package

0.5L & 5L

**Description**

Spotting agent for the removal of stains caused by tannin, fruit juice, red wine, coffee, tea. For use in professional wet cleaning.

Application

Apply P02-lagoon® Tannin Remover undiluted onto the stain, give approximately 15-25 seconds for the product to react, heat it with steam if required, and rub it in gently using a spatula or brush. Then, rinse with steam and water and blow it out with compressed air.

If required, repeat the treatment until the stain is removed.

Note on risks

Stain substances may already have damaged dyes and fabrics. However, such damage is often visible only after spotting has been performed. To avoid possible claims for compensation, customers should be made aware of potential risks and asked for their approval prior to beginning a treatment.

Physico-chemical properties

Density: 1.03 g/ ml

pH: 3.5
